WELCOME TO VOLUME 2 of the three catalog series featuring the **RENATO BENDAÑA** collection. The gold and crown issues of all of Latin America are included in this part, accompanied by a selection of Coins of the World. The third catalogue will offer only Central American and Brazilian minor coins. Once again we will mention that special payment terms can be arranged; otherwise, our usual terms of sale apply.

40 HONDURAS The Renato Bendaña collection contained several outstanding gold coins from his native country of Honduras. The 1871 Peso, offered below, is certainly the most interesting one. However, a 20 Pesos of 1888 was included in the collection; parties interested in that rare type are invited to contact us privately.

*41 -1 Peso 1871 - a mule with the obverse of the 1871 shield (much like the 1871 silver 5 Centavos) while the reverse has the Liberty Head of the gold peso type of 1888-1922. Apparently Y26, but unlisted as a mule (or transitional type) in Friedberg. The existence of this type was rumored for many years but remained unconfirmed except for a line drawing which convinced the editors of the Yeoman book to include it among their listings. Reeded edge. Probably the coin most prized by Dr. Bendaña. Nice VF, possibly **UNIQUE** . . . 3500.00
